

Traum-Aid™

Shower/Commode Trauma Wheel Chairs Models 494 and 495

Model 494

Model 495

Standard Features

- **250 lb weight capacity** Both models can support up to 250 lbs, the standard for most chairs
- **Reclining Back** Eleven independent angle positions starting at 15° from vertical to 25° from horizontal.
- **Elevating Leg and Foot Rests** Independently adjust to seven different angle positions at 5° to 47° from horizontal.
- **Extendable Footplate and Leg Rest** Each footplate has a seven-inch length adjustment for proper leg and foot positioning.
- **Leg Straps** Easily adjustable velcro straps accommodate all patient sizes.
- **90°/90° Positioning** This angle capability on both back and leg rests helps alleviate spasticity.
- **Head Positioning Wedge** This completely adjustable padded wedge includes chin and forehead straps for added security and stability.
- **Leg Rest Pad** Pivots out of the way for easy patient access.
- **"4-Way" Padded Seat** This comfortable slotted seat provides both the user and attendant easy and convenient access. Plus the two-inches of padding greatly reduces potential for tissue breakdown.
- **Restraint Belt** Can easily be used for the chest or pelvic areas. Consists of a Velcro loop of double-reinforced fabric that has a soft feel for patient comfort.
- **Epoxy Finish** Electrostatic application combined with heat curing creates a durable corrosion-resistant and easily cleaned metal finish.
- **Removable/Drop-Arm Design** Model 495 has a three position arm height adjustment and extended arm length, providing comfort and security for the patient. Model 494 features the padded removable arm with the "Active Quad Lock™" mechanism.
- **Mag Wheel** Model 494 has a durable, corrosion-resistant 24-inch magnesium alloy wheels with safety-sealed bearings and gray one-piece nonmarking polymer tires.
- **5" Caster Wheels** Both Models have safety-sealed bearings that maintain the easy maneuverability of these swivel casters.
- **Active Dual-plunger Floor Brakes™** This easy-to-use braking system assures a secure holding system at all times.
- **Narrow Profile** Adjustable and compact design provides easy attendant accessibility and makes home use possible.
