

# ELITE MOBILITY SCOOTER

Models: CH4022-Silver Frame | CH4029-Red Frame  
CH4030-Blue Frame | CH4031-Black Frame

The Elite Mobility Scooter is a “Class A” battery powered scooter intended to be used by individuals that are able to walk but suffer from mild mobility limitations. The Elite Mobility Scooter is intended for indoor and outdoor use on pavements or paved footpaths during daylight hours or in well-lit areas.

Folding effortlessly in seconds, the Elite Mobility Scooter is designed to fit easily just about anywhere: a small closet, tight elevators, narrow storage places and, of course, the trunk of your car. Take the Elite Mobility Scooter with you on car or airplane trips and be up and running as soon as you get there. Slide the Elite into the back of a van with virtually no lifting effort and unfold it again in no time. There are no connectors, latches or mechanisms to open when folding or unfolding. It’s that easy!

## FEATURES:
