LEFT HAND THROTTLE KIT

Making it *right* for left-handed people!

LEFT HAND THROTTLE KIT

ATTO Left-handed Throttle Kit is a must have for left-handed *ATTO* users.

Sure, many left-handed people have developed a high level of ambidexterity due to necessity rather than preference, however when it comes to steering control, one does want optimal control and this means a throttle that is operated with your strong hand.

ATTO Left-handed Throttle Kit is purchased separately and needs to be installed by a professional authorized *ATTO Dealer*.

- No compromising or adapting required
- 100% steering control with your strong hand
- Economically matched to left-handed use
