

CH4000 MASSAGE CHAIR

The CH4000 is a full body massage chair designed with the all new smart 4D soft massage process that incorporates rollers mounted on a four dimensional curved rail that realizes individual body curves and adjusts to provide the ultimate massage experience.

BENEFITS:

- Fatigue recovery and vigour regulation
- Relax the mood and shape the body
- Ease up the muscle and relax the skin
- Stretch muscles and bones
- Ease the body aches and opening the meridians and collaterals

ACCUPOINT AND PULSE TRACKING:

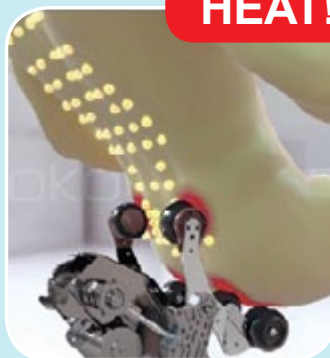

Intelligent body detecting system (IBDS)

- Based on Chinese Traditional Medicine massage theory
- Detects accurate range of neck, shoulders, back, waist, legs and buttock
- Provides a more accurate and deeper massage
- Adjusts massage point for users with different height, automated shoulder adjustment on startup

4D MASSAGE:

Conventional 3D massage chairs move up and down, left and right, and in and out, new 4D massage technology adds a new level with the ultra long curved rail that detects individual body shape and adjusts for maximum massage experience as it moves from neck to buttocks.

- **Four Dimensional ultra-long curved rail that realizes individual body curves and adjusts for maximum massage experience**
- **Multi-angle all round intelligent massage**
- **Focus on buttock massage**

HEAT!

With the addition of the zero gravity feature the multi-angle all-around intelligent massage to reach new limits as it simultaneously:

- **Stretches muscles and bones while it massages**
- **Relaxes the body in it's zero G state**
- **Fatigue recovery and vigour regulation**
- **Relieves pain**

CH4000 MASSAGE CHAIR

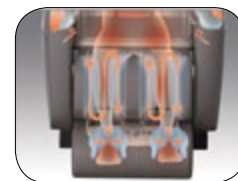

↑ EZee Life™

FULL BODY AIR BAG MASSAGE:

- Holographic feel
- Delicate and soft air pressure massage
- Unique simulation palm airbag technique
- Progressive multi-layer air bags (superior, weak to strong, deep massage)
- Eliminates fatigue
- Promotes blood circulation
- Relaxes muscles
- Massages shoulders, waist, calves and feet

- Shoulder Airbags
- Back Airbags
- Waist Airbags
- Arm Airbags
- Seat Airbags
- Calf Airbags
- Foot Airbags

Tips: Progressive airbags are the multi-layer ones which can conduct weak or strong deep massage on the muscles and acupoints, thus better realizing the traditional Chinese Medicine massage theory.

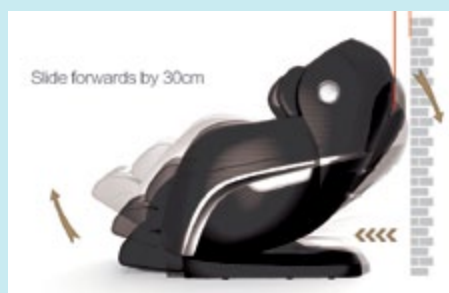

TABLET/SMARTPHONE CONTROLLABLE:

- Downloadable APP available smart phones and tablets
- Allows settings to be adjusted by smartphone/tablet
- Bluetooth
- Built in high quality speakers
- Use default music or your own by Bluetooth

MICRO SPACE SLIDING DESIGN:

- Chair slides forward 30 cm when activated to clear walls
- Provides 35° of tilt during use
- Saves space in room
- Requires only 8 cm between wall and back
- Returns to neutral position with the push of a button

Features:

- Multi-angle massage from neck to thighs
- Full body heat therapy
- 4D roller massage technology
- Heated rollers for deep penetration and soothing
- Air pulse secondary massage system
- Adjustable length footrest
- Space-save design allows close proximity to walls
- Massage automatically adjusts to music from MP3 player
